

Opener

1. A family went out to dinner, and their food and beverage totaled \$51.39. 6% sales tax is added to their bill, and then they plan to leave a 15% tip. What will the total cost of their bill be?

2. Mary needs 8 feet of ribbon to make a project. She has $3\frac{1}{2}$ ft of red, $2\frac{1}{3}$ ft of blue, $\frac{4}{5}$ ft of white, $\frac{2}{3}$ ft of silver and $\frac{1}{4}$ ft of gold. Does she have enough? If not, how much more does she need?
